

Crescenta Valley Town Council

July 23, 2014

President - Andre Ordubegian
Montrose Shopping Park Association

Re: Metro Bus line 91

Dear Andre,

The Crescenta Valley Town Council would like to work together to ensure the proper service from Metro continues within the Montrose Shopping Park.

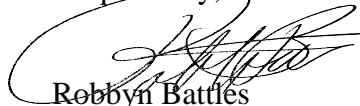

As you are well aware Metro has provided several options regarding the North bound 91 service. Elimination or re-routing the line permanently along Montrose Avenue are unacceptable options.

The Crescenta Valley Town Council would support a temporary re-routing of the 91 North bound service using the current Sunday Farmers market route, Verdugo to Florencita, Orangedale to Honolulu with the following provisions:

- 1: Re-routing is temporary until the Shopping Park can make permanent changes allowing Metro to service a North bound route through the shopping park.
- 2: Metro installs two bus stops; Florencita and Ocean View, North East corner and Orangedale and Honolulu, South West corner.
- 3: Upon completion of changes to bring Metro service back into the shopping park the CV Town Council will write a letter supporting the Shopping Parks request to re-route the North bound 91 bus line through the shopping park so long as the route continues service North bound from Honolulu onto La Crescenta avenue.

We hope you would support this temporary change as we feel if the line is eliminated or rerouted along Montrose Avenue too many residents and students will be negatively impacted with the loss of service on La Crescenta Avenue. If the Association develops a better plan prior to the August 5th Metro deadline, would you please communicate with us immediately as our goal is to be supportive of your issues these changes will have on the shopping park.

Respectfully,

Robbyn Battles
