It has recently come to the Council's attention that there could be a possible change in residency for Councilmember Ear. To provide clarity to the Council and to the constituents of the community, the Council decided to look further into the matter. Councilmember Ear informed the Council that he maintains his residence in La Crescenta, along with the same mailing address, the same voter registration, car registration and driver's license in California, and returns to La Crescenta regularly. Having received that information, the Council convened a meeting to discuss the issue further. All parties voiced their thoughts, a robust discussion took place, and a vote was taken. While not unanimous, the majority of the Council Members present voted to allow Councilmember Ear to serve out the remaining months of his term as elected.
