		None to report.		
				TOTAL:
				Property: \$0.00 Contents: \$0.00

ALS: Paramedic on board ambulance.

SAFETY TIP OF THE MONTH:

Carbon monoxide (CO) is known as the “silent killer” because it is an odorless, tasteless gas that cannot be seen. CO poisoning can result from faulty furnaces or other heating appliances, clothes dryers, or cars left running in garages. Some symptoms of CO poisoning include headaches, nausea, and drowsiness.

Exposure to undetected high levels of CO can be fatal. To avoid CO poisoning:

- Ensure all fuel-burning vented equipment is vented to the outside.
- Keep the venting for exhaust clear and unblocked.
- Do not leave your car running in the garage, even if the garage doors are open.

Saturday, May 7 is FIRE SERVICE DAY. All LA County Fire Department fire stations will be open to the public from 10:00 am to 5:00 pm. We encourage you to visit your local fire station, meet your local firefighters, and tour the station. Firefighters can also provide free blood pressure checks.
