RE: LA County Draft Wireless Facilities Ordinances and 5G Telecommunications

Dear Supervisor Barger and Planning Commissioners,

The Crescenta Valley Town Council has been contacted by several members of our community expressing concern over evolving Federal mandates in regards to 5G and Wireless Telecommunications asking that safety measures be added to the current LA County Draft Wireless Facilities Ordinances.

We ask that the County respectfully review the attached information provided to the Council from our constituents.

The Council has previously submitted letters of position to the County and we ask that you continue to take into consideration those opinions when making final decisions with other County departments such as Regional Planning.

We thank you in advance for your attention to the concerns of our community members.
